

Brain Design Public Core

Source index, ranking, traversal, reference points, reanimation, and Guardian review.

Contracts

- SourceRef
- BrainNode
- RelationEdge
- GoalSpec
- PipelineTrace
- GuardianFinding

Ranking Signals

- intent fit
- source authority
- relationship fit
- evidence strength
- freshness
- successful usage
- centrality
- access fit
- corruption risk
- staleness penalty

Rules

Multiple edges between the same two nodes are allowed when each edge has a different relationship reason and score.

Reanimate from source registry, compare with current graph, quarantine bad paths, preserve audit history, then regenerate exports.
