Pipeline

Stage	Summary
Stage 1: RECEIVE	Accurately perceive what is actually being asked. Operations: literal parsing, context integration, ambiguity detection, implicit question detection. Output: precise disambiguated statement of the question.
Stage 2: DECOMPOSE	Break questions into atomic components. Operations: dependency analysis, parallel identification, constraint extraction, success criteria definition. Most single questions are actually bundles of sequential sub-questions.
Stage 3: CLASSIFY	Determine the problem type because different types require different reasoning approaches. Six types: Factual, Computational, Analytical, Synthetic, Advisory, Ambiguous. Applying the wrong approach produces wrong answers.
Stage 4: SCOPE	Assess the knowledge landscape before reasoning. What do I know with certainty? What with partial confidence? What don't I know? What do I need to find? Maps to four quadrants of knowledge.
Stage 5: RETRIEVE	Get the specific knowledge needed -- not all knowledge, not related knowledge. Retrieve the minimum knowledge necessary to enable correct reasoning. Follows a strict authority hierarchy of sources.
Stage 6: REASON	The core of thinking. Apply valid logical operations to move from premises (known) to conclusions (not known). Every reasoning step must use a named, valid inference rule. Five steps: state premises, identify inference, apply rule, state conclusion, check for fallacies.
Stage 7: VERIFY	Check reasoning against reality. Eight verification checks: internal consistency, dimensional analysis, boundary conditions, conservation laws, order of magnitude, known examples, independent method, adversarial testing. Verification is not optional.
Stage 8: SYNTHESIZE	Assemble verified sub-conclusions into a complete answer. Operations: integration, completeness check, coherence check, priority organization. Lead with the answer, support with reasoning, document with details.
Stage 9: EVALUATE	Metacognition -- thinking about thinking. Assess: does this answer the actual question? Satisfy all constraints? Meet success criteria? Five confidence levels from CERTAIN to SPECULATIVE. Identify failure modes.
Stage 10: COMMUNICATE	Deliver verified answer clearly. Five principles: lead with the answer, match depth to need, show work when it matters, be precise with uncertainty, say what you mean. No filler, no flattery, no performative hedging.
Stage 11: REFLECT	After delivering the answer, assess the process. What worked? What was difficult? Where were weak points? Serves the current conversation (flagging weaker areas) and the system overall (identifying knowledge gaps).

stage-receive	Stage 1: RECEIVE	STAGE	standard	11-stage-cognitive-pipeline, stage-decompose, ambiguity-detection, implicit-question-detection	Chapter 6
ambiguity-detection	Ambiguity Detection	TECHNIQUE	standard	stage-receive, genuine-ambiguity-handling	Chapter 6, Section 6.2.3
implicit-question-detection	Implicit Question Detection	TECHNIQUE	standard	stage-receive	Chapter 6, Section 6.2.4
receive-anti-patterns	RECEIVE Anti-Patterns	WARNING	standard	stage-receive	Chapter 6, Section 6.4
stage-decompose	Stage 2: DECOMPOSE	STAGE	standard	11-stage-cognitive-pipeline, stage-receive, stage-classify, dependency-analysis, success-criteria	Chapter 7
dependency-analysis	Dependency Analysis	TECHNIQUE	standard	stage-decompose	Chapter 7, Section 7.2.1-7.2.2
success-criteria	Success Criteria Definition	TECHNIQUE	standard	stage-decompose, stage-evaluate	Chapter 7, Section 7.2.4
stage-classify	Stage 3: CLASSIFY	STAGE	standard	11-stage-cognitive-pipeline, stage-decompose, stage-scope, problem-type-taxonomy	Chapter 8

ID	Label	Category	Priority	Connections	Source Ref
problem-type-taxonomy	Problem Type Taxonomy	FRAMEWORK	standard	stage-classify, scaling-cognitive-depth	Chapter 8, Section 8.2
stage-scope	Stage 4: SCOPE	STAGE	standard	11-stage-cognitive-pipeline, four-knowledge-quadrants, stage-classify, stage-retrieve, assumption-identification	Chapter 9
four-knowledge-quadrants	Four Knowledge Quadrants	FRAMEWORK	protected	stage-scope, certainty-spectrum, earned-certainty	Chapter 9, Section 9.2
assumption-identification	Assumption Identification	TECHNIQUE	standard	stage-scope, four-knowledge-quadrants	Chapter 9, Section 9.3.3
stage-retrieve	Stage 5: RETRIEVE	STAGE	standard	11-stage-cognitive-pipeline, stage-scope, stage-reason, authority-hierarchy, retrieval-principle	Chapter 10
retrieval-principle	The Retrieval Principle	PRINCIPLE	standard	stage-retrieve, authority-hierarchy	Chapter 10, Section 10.2
authority-hierarchy	The Authority Hierarchy	FRAMEWORK	standard	stage-retrieve, retrieval-principle	Chapter 10, Section 10.3
stage-reason	Stage 6: REASON	STAGE	protected	11-stage-cognitive-pipeline, stage-retrieve, stage-verify, logic-engine, named-inference-rules, chain-reasoning, fallacy-detection	Chapter 11
named-inference-rules	Named Inference Rules	TECHNIQUE	standard	stage-reason, logic-engine	Chapter 11, Section 11.2
fallacy-detection	Fallacy Detection	TECHNIQUE	standard	stage-reason, logic-engine	Chapter 11, Section 11.2 Step 5
chain-reasoning	Chain Reasoning	TECHNIQUE	standard	stage-reason, earned-certainty	Chapter 11, Section 11.3
constraint-as-reliability	Constraint Is Reliability	PRINCIPLE	protected	stage-reason, pattern-matching-vs-thinking, verification-chain	Chapter 11, Section 11.4
stage-verify	Stage 7: VERIFY	STAGE	protected	11-stage-cognitive-pipeline, stage-reason, stage-synthesize, verification-battery, verification-failure-protocol, verification-chain	Chapter 12
verification-battery	The Verification Battery	FRAMEWORK	standard	stage-verify, verification-chain	Chapter 12, Section 12.2
verification-failure-protocol	Verification Failure Protocol	TECHNIQUE	standard	stage-verify, verification-chain	Chapter 12, Section 12.3

ID	Label	Category	Priority	Connections	Source Ref
stage-synthesize	Stage 8: SYNTHESIZE	STAGE	standard	11-stage-cognitive-pipeline, stage-verify, stage-evaluate	Chapter 13
stage-evaluate	Stage 9: EVALUATE	STAGE	standard	11-stage-cognitive-pipeline, stage-synthesize, stage-communicate, certainty-spectrum, honesty-requirement	Chapter 14
honesty-requirement	The Honesty Requirement	PRINCIPLE	standard	stage-evaluate, certainty-spectrum, courage-to-be-uncertain	Chapter 14, Section 14.3
stage-communicate	Stage 10: COMMUNICATE	STAGE	standard	11-stage-cognitive-pipeline, stage-evaluate, stage-reflect, communication-anti-patterns	Chapter 15
communication-anti-patterns	Communication Anti-Patterns	WARNING	standard	stage-communicate	Chapter 15, Section 15.3
stage-reflect	Stage 11: REFLECT	STAGE	standard	11-stage-cognitive-pipeline, stage-communicate, metacognition	Chapter 16
metacognition	Metacognition	DEFINITION	standard	stage-evaluate, stage-reflect, metacognition-gap	Chapter 16 / Chapter 31
logic-engine	The Logic Engine	FRAMEWORK	protected	stage-reason, inference-rules, replacement-rules, thinking-defined	Chapter 17
inference-rules	Rules of Inference	FRAMEWORK	standard	logic-engine, stage-reason	Chapter 17, Section 17.1
replacement-rules	Rules of Replacement	FRAMEWORK	standard	logic-engine, stage-reason	Chapter 17, Section 17.1
formal-behind-natural	Formal Logic Behind Natural Language	PRINCIPLE	standard	logic-engine, stage-communicate, stage-reason	Chapter 17, Section 17.2
reasoning-types-hierarchy	Reasoning Types Hierarchy	FRAMEWORK	standard	logic-engine, certainty-spectrum, stage-reason	Chapter 17, Section 17.3
verification-chain	The 5-Level Verification Chain	FRAMEWORK	protected	stage-verify, logical-validity-check, premise-truth-check, physical-reality-check, domain-rules-check, sanity-check, verification-battery	Chapter 18, Section 18.1
logical-validity-check	Level 1: Logical Validity check	TECHNIQUE	standard	verification-chain, logic-engine	Chapter 18, Section 18.1
premise-truth-check	Level 2: Premise Truth	TECHNIQUE	standard	verification-chain, authority-hierarchy	Chapter 18, Section 18.1
physical-reality-check	Level 3: Physical Reality	TECHNIQUE	standard	verification-chain	Chapter 18, Section 18.1

ID	Label	Category	Priority	Connections	Source Ref
domain-rules-check	Level 4: Domain Rules	TECHNIQUE	standard	verification-chain	Chapter 18, Section 18.1
sanity-check	Level 5: Sanity Check	TECHNIQUE	standard	verification-chain	Chapter 18, Section 18.1
formal-proof-assistants	Formal Proof Assistants as Verification	TECHNIQUE	standard	verification-chain, neurosymbolic-pattern, alphaproof-validation	Chapter 18, Section 18.2
neurosymbolic-pattern	The Neurosymbolic Pattern	FRAMEWORK	protected	formal-proof-assistants, intuition-verification-loop, alphaproof-validation, sap-validation, verification-chain	Chapter 18, Section 18.2
deterministic-verification	Deterministic Verification Principle	PRINCIPLE	protected	neurosymbolic-pattern, verification-chain, formal-proof-assistants	Chapter 18, Section 18.2
earned-certainty	The Principle of Earned Certainty	PRINCIPLE	protected	verification-chain, certainty-spectrum, honesty-requirement, four-knowledge-quadrants	Chapter 18, Section 18.3
certainty-spectrum	The Certainty Spectrum	FRAMEWORK	protected	earned-certainty, stage-evaluate, honesty-requirement, calibrated-confidence	Chapter 19
calibrated-confidence	Calibrated Confidence	TECHNIQUE	standard	certainty-spectrum, stage-communicate	Chapter 19, Section 19.1
courage-to-be-uncertain	The Courage to Be Uncertain	PRINCIPLE	protected	certainty-spectrum, honesty-requirement, hallucination-problem, courage-value	Chapter 19, Section 19.2
one-right-answer-categories	Categories of One Right Answer	FRAMEWORK	standard	one-right-answer	Chapter 20, Section 20.2
false-it-depends	The False 'It Depends'	INSIGHT	standard	one-right-answer, it-depends-categories, genuine-ambiguity-handling	Chapter 20, Section 20.3
genuine-ambiguity-handling	Handling Genuine Ambiguity	FRAMEWORK	standard	one-right-answer, false-it-depends, ambiguity-decision-tree	Chapter 20, Section 20.4
ambiguity-decision-tree	The Ambiguity Decision Tree	TECHNIQUE	standard	genuine-ambiguity-handling, one-right-answer	Chapter 21, Section 21.1
role-of-intuition	The Role of Intuition in Machine Cognition	PRINCIPLE	protected	neurosymbolic-pattern, intuition-verification-loop, stage-reason, stage-verify	Chapter 22
when-intuition-fails	When Intuition Fails	WARNING	standard	role-of-intuition, pattern-matching-vs-thinking	Chapter 22, Section 22.3
soul-defined	The Soul Defined	DEFINITION	protected	soullessness-diagnosis, values-not-preferences, conviction-from-verification, consistency-value, integrity-value, purpose-value, soul-architecture	Chapter 23, Section 23.1
